Shoe Cover – 1 Pair

Spun Bond Non woven Laminated I Tear Resistant I SITRA Approved I 50 gsm non woven+20 gsm Lamination I

Product Specification :Protective Coverall

- ✓ Laminated spun bond non-woven fabric, soft, light, good air permeability, water repellent synthetic blood penetration resistant.
- ✓ Seams are covered by special sealing tape for protective clothing, effectively block virus, bacteria, micro organism.
- ✓ Zipper & Flap are in front protection, Double insurance enhances isolation protection.
High strength and density, durable & tear resistance.
- ✓ ASTM160/F 1670 M-08(2014). South Indian Textile Research Association (SITRA)
- ✓ Spun Bond Non-woven Poly Propylene Laminated
- ✓ The protective suit includes a hooded top & trousers
- ✓ 50 Non-woven +20 Laminated Gsm
- ✓ Avail Color : white

Product Specification : #105 Hand Glove

- ☑ This product contains natural Latex rubber latex.
- ☑ Special quality natural rubber latex and with Non-Toxic chemicals to avoid virus infection.
- ☑ Thicker gloves for enhanced safety
- ☑ Pre-powered with modified Bio-Absorbable corn starch, to prevent infection and granulomas.
- ☑ Sterilized in-house in a validity facility as per ISO 13485:2003

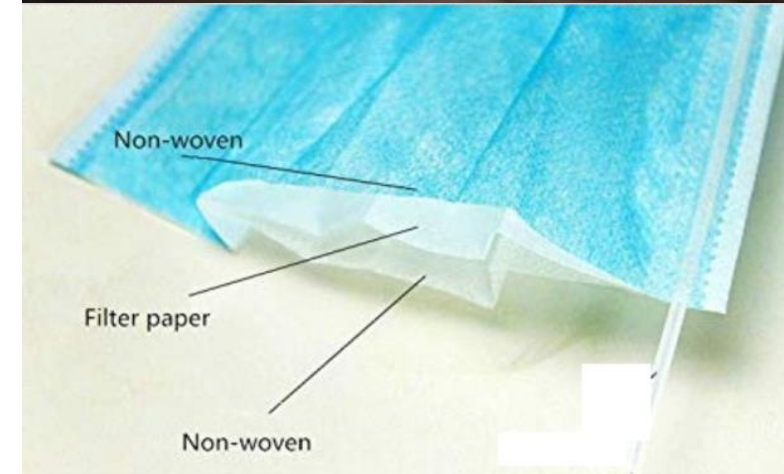

Product Specification : #106 Head Cover

- ✓ Laminated spun bond non-woven fabric, soft, light, good air permeability, water repellent synthetic blood penetration resistant.
- ✓ Seams are covered by special sealing tape for protective clothing, effectively block virus, bacteria, micro organism.
- ✓ High strength and density, durable & tear resistance.
- ✓ ASTM160/F 1670 M-08(2014). South Indian Textile Research Association (SITRA)
- ✓ Spun Bond Non-woven Poly Propylene Laminated
- ✓ The protective suit includes a hooded top & trousers
- ✓ 50 Non-woven +20 Laminated Gsm
- ✓ Avail Color : white

Product Specification : #107 Surgical mask

- ✓ Single use mask consist of Anti microbial PP spun bond Non-woven fabric
- ✓ Suitable for general use, blocking both exhalation and inhalation of pathogens and airborne liquid droplets expelled by coughing, sneezing and respiration.
- ✓ Splash resistance & breathing resistance
- ✓ 1st layer & 3rd layer –Polypropylene Spun bond non- woven
2nd layer – Melt blown Non-woven filter fabric.
GSM 20 gms
- ✓ **Anti-microbial activity of the fabric** ->95% reduction of microbes.
- ✓ **Bacterial filtration Efficiency (BFE)**(ASTM:F2101-2019)->95%

Product Specification :Shoe Cover

- ✓ Laminated spun bond non-woven fabric, soft, light, good air permeability, water repellent synthetic blood penetration resistant.
- ✓ Seams are covered by special sealing tape for protective clothing, effectively block virus, bacteria, micro organism.
- ✓ High strength and density, durable & tear resistance.
- ✓ ASTM160/F 1670 M-08(2014). South Indian Textile Research Association (SITRA)
- ✓ Spun Bond Non-woven Poly Propylene Laminated
- ✓ The protective suit includes a hooded top & trousers
- ✓ 50 Non-woven +20 Laminated Gsm Ned.
- ✓ Avail Color : white
